**Section 4**

<p><b>16</b></p>	<p>Compare the views of Jenny, the customer in Document 3, with the views expressed in Document 1, giving examples from <b>each</b> text.</p> <p>In your answer you should also:</p> <ul style="list-style-type: none"> <li>• identify textual features</li> <li>• identify the purpose of <b>each</b> text.</li> </ul>		<p><b>[3 marks]</b></p>
	<p><b>(One of the following)</b>  <b>The learner's response will:</b></p> <ul style="list-style-type: none"> <li>• have some mention of at least one of the views expressed by Jenny in Document 3 AND one of the views expressed in Document 1, but <b>limited implicit comparison</b> and no consideration of how views are conveyed <b>[1 mark]</b></li> <li>• compare at least one of the views expressed by Jenny in Document 3 and one of the views expressed in Document 1 with <b>some explicit comparison</b>, with limited consideration of how views are conveyed in at least one document <b>[2 marks]</b></li> <li>• have a <b>clear and explicit comparison</b> of the views expressed by Jenny in Document 3 and the views expressed in Document 1, with examples from both sources (eg Both Jenny and the writer of Document 1 want to be more sustainable. Jenny says that using Ocean Kleen is easy, but Devon isn't sure he should trust what he reads online. Document 1 is an opinion piece; Document 3 is an advert to persuade readers to buy a product. Devon is looking to take up a green subscription, Jenny already uses Ocean Kleen.) There is clear comparison of how views are conveyed in both documents (eg Jenny uses informal language and a rhetorical question, 'What's not to love?', while Document 1 is more formal in tone) <b>[3 marks]</b>.</li> </ul> <p><b>Do Not Accept</b> responses that are sourced from Document 2.  <b>0 marks should be given for no awardable content.</b></p>	<p>3</p>	<p>2.12</p>

17	<p>Analyse <b>all three</b> documents for evidence of bias and explain which document is the <b>least</b> biased.</p> <p>In your answer, you should refer to language, purpose and bias, giving examples from the texts. <span style="float: right;"><b>[4 marks]</b></span></p>
	<p><b>(One of the following)</b>  <b>The learner's response will:</b></p> <ul style="list-style-type: none"> <li>• <b>make a clear choice but only consider the one document selected. Limited explanation given for choice</b>, eg Document 2 is the least biased as it's just a set of instructions explaining how to make cleaning products. <b>[1 mark]</b></li> <li>• <b>make a clear choice considering only the document selected and one other</b>, eg Document 2 is the least biased as it is a set of instructions that mention benefits of making products, but it is more instructional than biased. Document 3 is written from the viewpoint of a company that wants to sell eco-friendly products - so this is clearly biased. <b>Reasonable explanation given for choice, although some reasoning may be implicit [2 marks]</b></li> <li>• <b>make a clear choice considering all three documents</b>, eg Document 2 is the least biased as while it explains some benefits to making home-made cleaning products, it is more of a set of instructions with no bias. Document 3 is the most biased as it is trying to persuade you to buy eco-friendly products. In Document 1 the writer seems sceptical about what some people say about eco-friendly products. His text is an opinion piece, but his agenda is to look for ways to be green, so it's less biased than Document 3. <b>Choice supported by a reasonable explanation [3 marks]</b></li> <li>• <b>make a clear choice considering all three documents in detail. There is a comprehensive explanation, supported by examples</b>, eg Document 2 is the least biased as it is more a set of instructions than anything else. There is a little bias as it gives clear reasons why you might want to make your own cleaning products, such as: 'You too can avoid chemicals...', but of the three documents it has the least bias overall. Document 1 is an opinion piece where the writer discusses his keenness to go green and the pitfalls he has faced along the way. There is some bias in that he mistrusts what he reads on social media ('...a little jaded about so-called eco-friendly social media posts.') and use of emotive language to influence the reader. Document 3 is the most biased as it only offers a positive view of Ocean Kleen, who sell eco-friendly cleaning products, from the company's own perspective and so portrays them in a favourable light, using persuasive language to do so, 'This is a game changer.' and 'You can have it all!' <b>[4 marks]</b>.</li> </ul> <p><b>0 marks should be given for no awardable content.</b></p>
